## MANY LIVES ARE LOST

IN EAST ST. LOUIS THROUGH THE BREAK IN THE EMBANKMENT AT 3:30 A. M.

**MAYOR COOK CALLS FOR MILITIA.**

It is believed that at least One Hundred Lives Were Lost by the Overflow—Many People Hurriedly Leaving the City.

According to unofficial reports many persons, probably 100, were drowned in East St. Louis this morning.

At 3:30 this morning the water reached Fourth street and Brady avenue, which is almost opposite Olive street, St. Louis.

When the flood first broke upon the stricken territory hundreds sought refuge in the second story of the Public Library building. Gradually water closed about them and shortly afterward the structure was deserted.

The City Library is located at this corner and is surrounded by water.

Hundreds of families are carrying their grips, trunks and personal effects across Eads bridge. Women with babies in their arms, followed by crying, thin-lad, barefooted children are being housed in St. Louis.

Mayor Cook, of East St. Louis, telegraphed at 3:30 this morning to Col. John D. Oglesby, secretary to Governor Yates, of Illinois, asking for militia to patrol the streets of the city. He said that the southern half of the town was flooded.

Colonel Oglesby promised to have 250 men in East St. Louis early Wednesday morning.

**SUMMARY OF FLOOD CONDITIONS.**  
The Illinois Central embankment at Chartrand crossing, near the eastern limits of East St. Louis, broke at midnight, and all East St. Louis became seriously inundated. Many fled from the city.

The break is 100 feet wide and 25 feet deep.

Breaking of the levee will affect 100,000 inhabitants.

At midnight the river gauge at St. Louis registered 37.75, the highest stage of the present rise.

Frightened by a further rise of the water and reports of a second flood, there was a rush to get away from the stricken cities of Venice, Madison and Granite City Tuesday, which almost depopulated the towns.

Relief boats, carrying provisions to those who had remained to battle with the flood, were loaded to their guns upon their return with refugees.

Plenty of food has been provided for those who are still in the inundated district, and none are regarded as being in peril.

Search for the missing in the Tri-Cities shows that many persons who were thought to be dead are safe, and the death list as first reported will be greatly reduced.

Traffic through the Merchants' bridge gateway to St. Louis is still cut off.

Since noon Tuesday the Eads bridge has been closed to train traffic, due to high water at the east approach. This cuts St. Louis off from all direct eastern connection.

East St. Louis is the present terminus for all lines that can enter that city, and other roads are transferring passengers by boat from Alton.

**Paving to be Commenced Soon.**  
J. E. Lynch, of Moberly, who has the contract to lay six blocks of vitrified brick street paving in this city, was in Mexico to-day, and says that the work will begin in ten days or two weeks. The vitrified brick to be used in this work is being unloaded in this city and workmen are distributing it along the streets to be improved.

**Binder Twine.** See us for twine. **FERRIS & CAUTHORN.**

## MARRIED IN MEXICO.

Assistant Cashier of Quinton, I. T. Bank Married Rhineland Girl at Mexico Baptist Church Wednesday.

Joel T. Magruder, of Quinton, Indian Territory, and Miss Gladys E. Burch, of Rhineland, Mo., were married in the pastor's study at the Baptist church in this city Wednesday morning by Rev. H. E. Truax at 11:30 o'clock. They boarded the 11:59 Wabash for their future home in Quinton.

The groom is the assistant cashier of the First National Bank of Quinton, and is a young man of excellent standing.

The bride is a daughter of Dr. S. J. Burch, of Rhineland, and a sister of H. W. Burch, an employe at The Intelligent one. She is a young lady of charming personality and is well liked. She was visiting her brother in this city prior to the wedding and it was thought best to have the ceremony performed here on account of the distance.

Miss Buel Burch, a sister of the bride, attended the wedding and accompanied the bridal couple on their journey home.

**Say District Filled.**  
LOUISIANA, Mo., June 8.—After falling fifteen inches here on account of the break in the Say levee, the Mississippi is rising again to-night.

At 6 o'clock the river is 15 feet 9 inches, and a rise of 6 inches is expected during the night. From information received from above here the rise at Quincy is expected to be due to the Hunt levee district having become filled, and it is likely that the Say district will be filled by to-morrow night, when the rise below will become equal to that above.

The Say district is flooded to-night to fifteen miles north of here, at which point the water finds its level. The water will extend a mile further north in the Say district for each eight inches of rise here, as that is the fall in the river.

The break at this point is growing wider every hour, notwithstanding all the efforts of the Chicago & Alton men, who are working with bags of sand, stone and a pile driver to keep the gap from growing. But it is now nearly 1,000 feet wide, and an immense volume is pouring through.

The loss to crops is conservatively estimated at \$1,500,000. Some of the houses are washed away and corn in cribs, hay and feed, as well as growing crops, are ruined or washed away. The situation in this city is improving. No rain to-day, and to-night the moon gives light.

We have written testimonials from people praising the merits of Racine vehicles. Quality tells and you will be almost sure to say a kind word for Racine bargains, surries or whatever it may be if you use one a few years.

**FERRIS & CAUTHORN.**

## FREE! FREE! FREE!

To introduce himself to the sick and demonstrate to them his new and successful method of curing CHRONIC DISEASES.

**DR. PRETTYMAN**  
The famous Specialist, of Chicago, will be on his coming visit to Mexico, Mo., on Thursday, June 25, at Ringo Hotel, 9 a. m. to 9 p. m.

**GIVE FREE TREATMENT.**  
Charge only cost of medicine used.

Read carefully every word of the following: DR. PRETTYMAN is a graduate of the College of Physicians and Surgeons, New York City, one of the greatest and best medical colleges in the United States. He has had four years of training in the great hospitals of New York, Ohio and Chicago. The doctor is a stranger in Missouri, as he has never before been to this state, and he is now making a special study of the chronic diseases of the people of this state.

He has been successful in curing many cases of chronic diseases, and he is now making a special study of the chronic diseases of the people of this state.
